

Connector Operator API

Introduction

This document describes API exposed by *Connector* to the *Operator*.

The key words **MUST**, **MUST NOT**, **REQUIRED**, **SHALL**, **SHALL NOT**, **SHOULD**, **SHOULD NOT**, **RECOMMENDED**, **MAY**, and **OPTIONAL** in this document are to be interpreted as described in [RFC 2119](#).

Outgoing messages

Messages sent from the game client to the iframe parent via [postMessage](#).

Example of sending message:

```
window.addEventListener("message", (event) => {
  const {message, data} = event.data;
  switch (message) {
    case "reload":
      window.location.reload();
      break;
  }
});
```

Message	Data	Description
authenticated	{balance, token, currency, sessionData}	Game has authenticated player
started	-	Game has started (i.e. slot started spinning)
stopped	-	Game has stopped (i.e. slot stopped spinning)
balance	{balance: 100}	Balance changed
exit	-	Quit the game and i.e. return to the lobby To activate it requires passing <code>&customExit</code> flag in the game launch URL
reload	-	Reload the game. To activate it requires passing <code>&customReload</code> flag in the game launch URL
deposit	-	Display deposit popup To activate it requires passing <code>&customDeposit</code> flag in the game launch URL
betChanged	{bet}	<code>setActiveBet</code> method was called by the game client
replayShown	replay	Replay presentation was started, ie. <code>show</code> method was called from Game History list
replayHidden	-	Player stopped replay screen presentation, ie. <code>show</code> method was called from Game History list

Incoming messages

Messages sent from iframe parent to the game client via [postMessage](#).

Example of sending message:

```
const iframe = document.getElementById("iframe").contentWindow;
iframe.postMessage({message: "freeze", data: {test: 123}}, "*");
```

Message	Data	Description
freeze	-	Shows overlay blocking the game interactivity and stopping autoplay
unfreeze	-	Hides overlay blocking the game interactivity
mute	-	Mutes audio
unmute	-	Unmutes audio
play	{action: "main", bet: 2, cheat: "bonus"}	Triggers the game
stopAutoplay	-	Stops autoplay (without the overlay)
balanceChanged	{balance: 1000}	Updates balance in the game to the specific amount
refreshBalance	-	Triggers an async balance update in the game
